

AIRÉLEC

Convection heater
Enduroc

TOTALLY SILENT

AIRALU® heating element
Life time silent guarantee **BREVET**

ELECTRONIC VERSION

ELECTROMECHANICAL VERSION

L'expérience fera toujours la différence

Conçu, développé et fabriqué dans nos usines en France.

Enduroc

Electromechanical or Electronic convector

Comfort

Exclusive Airelec sheathed heating element with aluminium fins
 Electromechanical thermostat precise up to 1°C.
 Electronic thermostat precise up to 1/10°C.
 Electronic version programmable through pilot wire : Confort and Eco

Design

Single block front panel.
 Slim line design for a very gentle outline 3 cms visual edging.

Choice

Electromechanical version : 9 outputs from 500 to 3000W
 Electronic version : 7 outputs from 500 to 2000W
 2 colours : white (RAL 9016) or alabaster (RAL 9001)

Control box

ON/OFF switch on the right side of the heater
 Control box situated on the top side of the body with :

- ▶ Graduated and lockable thermostat dial with No frost position
- ▶ Working light on the E version

Safety

Thermal cutout circuit with automatic reset ability
 Shock resistant up to 5 joules, IK 08

Installation

Delivered with installation frame.
 Clip-in power supply cable.
 The Electronic version heater range comes with a 3 core power supply cable (permanent connection) with the following polarity :

Phase : brown **If not used, the pilot wire must be**
Neutral : blue **connected to a potential free terminal in a**
Pilot wire : black **suitable permanent connection unit.**

Supply : 230 Volts AC. 50 Hz single phase
